Theme	Cultural Symbols
Message United thoughts to share with the world	When we share what we are, we get a special bond that brings us together and makes us take care of each other.

Effects and the Problems

Effects your students have gained	Points for further improvement
The kids learned about Japanese culture and the way kids in Japan interact in school. Not only that but they also experienced learning about what identifies us.	Since it was our first time, we spent a lot of time deciding which images would really represent the richness of our culture. At the end the kids worked very hard and painted a great mural that complements our Japanese peers.

How has your impression toward your partner's country/region and the world changed?

Changes in the students	Changes in the teachers
Kids grew more aware on the aspects of other countries, not only Japan; they started asking questions on other countries as well.	We, the teachers, also got an opportunity to learn how cooperation between different countries, and how the process to create a common project.
