Effects and the Problems

Effects your students have gained	Points for further improvement
Students were happy to research the special places and activities in Canada to share with Japanese class and also learn the same about Japan. They were very motivated to do their best work and represent our school and community well.	

Have you made your activity open in your school or in your local area? How was their reaction or reputation?

PR you did inside/out of your school	Reaction/reputation from around
Parents were excited to see the work. We displayed the mural in the school for 2 weeks. It was also in our local paper.	Our local reporter said it is one of the favourite school stories that she reports on every year.
