Effects and the Problems

Effects your students have gained	Points for further improvemenstudents
The learners have a sound apperciation of art and how it is able to communicate with others. The students became more aware of thier current enviroment.	to conduct more in depth research and intergrate the Japan artmile program more. Effectively and emphasise of sound curriculum linkages.

Have you made your activity open in your school or in your local area? How was their reaction or reputation?

PR you did inside/out of your school	Reaction/reputation from around
inside the school the project fostered interest from parents and school admin and offered more support. In my home country a number of schools are looking	the arts departments profile has increased in the school. Parents want their children to be part of the exchange.

Flow of the Activity

Content	Month	What you did	Your students attitude/reflection	Subject
Introduction	November	the learners created introduction cards that's where uploaded on the forum.	The learners received mail from Japan very exciting! So we where able to talk about Nigerian and worldwide postal service	social Art IT
Research	November	using internet the learners researched on what they would like to do. A trip to Aso rock and the mosques i spired the design	the learners enjoyed exploring and using ICT for information gathering. Using google translate they learnt how to say hello in Japanese and spent the whole day greeting each other.	art IT
Composition	November	in pairs and small groups participants created drafts ideas of what they wanted on the mural we then cut and paste the ideas to create one huge sheet.	Getting the learners to work together on the composition stage was a challenge they had never done any huge work. However when they could visualize the whole drawing they where fully engaged with some coming almost everyday to ask me if there where emails from Japan	Art IT
Painting	december	the learner took turns to transfer the draft on to the canvas.	Here the children where fully engaged they where impressed by the other schools work they loved it. We even made a list of new vocabulary to describe the work. At this point I feel the learns appreciated the concept of this project.	art
Appreciation	december	We displayed our mural in the school hallway along with the letters.	the children where so proud of their work after it was displayed.	fine art
