Effects and the Problems

Effects your students have gained	Points for further improvement
The students recognized local cultures and peace in it. They are motivated enough to practice the values of their culture in society for having a prosperous and peaceful country.	It was a little difficult to use the forum at first but gradually we got used. Thank you for your kind guidance.

Have you made your activity open in your school or in your local area? How was their reaction or reputation?

PR you did inside/out of your school	Reaction/reputation from around
We informed the local media of our exchange. We arranged inter school meetings of our students so that they can exchange their ideas and also publish our activities in local paper.	My students were very excited with the involvement in this project. They worked really enthusiastically and we got very positive response from local public through E-mails, letters and video conference. Their parents were also proud of this international exchange.
