The students had made foreign friends and they could earn the wide view toward the world. They got to have interest in the life of the other world.	The quality of the Skype service was not good enough at video conference, so it was difficult to understand all.

Have you made your activity open in your school or in your local area? How was their reaction or reputation?

PR you did inside/out of your school	Reaction/reputation from around
We practiced the Japanese song to make a presentation for the Japanese students.	Students were very happy to do penpal programs and exchange the gifts, and most of all they loved painting the half of the murals.
