Effects and Problems

Effects your students have gained	Points for further improvement
<p>Our students appreciate the values, beliefs and traditions from Japan. We wanted them to communicate through language, art and video using different techniques. The planned actions have also given students access to rights and duties as well as responsibilities, to achieve global citizenship.</p> <p>Our actions are based on key skills: communication in the mother language, communication in a foreign language Mathematical literacy and basic competences in science and technology, Digital Culture, learning to learn, Interpersonal, intercultural and social and civic competences, entrepreneurship, cultural expression. The actions put in place to discover Japan (geography, history, symbols, traditions, language, customs, daily life, fairy tales, famous characters, ...).</p>	<p>We would like more contact between students, especially with videoconferencing, receive from the beginning a list of students with names, ages and photos.</p>

How has your impression toward your partner's country/region and the world changed?

Changes in the students	Changes in the teachers
<p>new skills and knowledge were acquired by students, especially in the use of English, knowledge of a new country Japan (culture, lifestyle, history, geography, ...); the pleasure of working in a team and participating in a collaborative project.</p>	<p>the motivation for such exchanges and the multidisciplinary aspect to develop in order to make the most of the objectives of this program.</p>
