Theme and Message of the mural

Theme	SDG 11 and 15
Message United thoughts to share with the world	Let's take a stand for a brighter, greener future! Let's embrace the connection between forests and cities in order to create a symbiotic society that considers not only humans but also animals and nature. With education and strong will, we can nurture a harmonious ecosystem. Let's foster pride in our hometown. Join hands and take the first step!

Effects and Problems

Effects your students have gained	Points for further improvement
My students are more aware of global issues and the importance of countries working together to solve them.	I would like the platform to have a way in which students can have a forum and interact with the Japanese students.

How has your impression toward your partner's country/region and the world changed?

Changes in the students	Changes in the teachers
My students are more open minded and prepared for research in order to promote a substantial discussion.	I have become more aware of how international programs change the perception students have of learning and collaborating.

Flow of the Activity

Content	Month	What you did	Your students' attitude/reflection	Subject
RESEARCH the theme	Sep.	Research on goals 11 and 15.	Good attitude and use of research skills as well as video and poster preparation for sharing information.	SDG's 11 and 15
SHARE with the partner	Oct.	Students presented their videos and posters about their research and possible solutions.	Good attitude and use and practice of English language to share their findings.	SDG's 11 and 15
UNITE the thoughts	Nov.	Think about similarities and differences and come up with solutions in unison.	Great attitude and appreciation of the work that was shared.	Solutions
CREATE the mural	Dec.- Feb.	We received the mural and started working on it. We also had the title of it.	Very happy to have finished the research and with being able to agree on our discussion and on the mural design.	Mural creation
APPRECIATE the whole learning	Mar.	We talked about how beautiful the project had ended and how it applied everything we had researched and discussed.	Excited to have received the mural and have shared candy from far away across the world. Makes them collaborative.	Collaboration

Effect and evaluation gained through the collaborative learning

Evaluation: Rank 5 to 1 (5: very effective / 4: effective / 3: so-so / 2: not so effective / 1: not effective at all)

Expected effect	Evaluation	Scenes and reasons that teachers felt the effects
Cross-cultural understanding	5	It was great working with ENA High School, our ideas were respected and we were able to work perfect together with nice discussion.
Active learning	5	Students were able to research about their country and share with another country. Also learn from real people living in that country.
Critical thinking	4	Students were able to really comprehend what they researched by doing diagrams with ideas but I feel there was more communication between them needed.
Collaborating with different people	4	Students were able to read ideas from the forum but I feel there should be a forum made for them to really interact with each other.
Expressing in words, in shape	5	Making the mural was awesome, for us it means fulfilling almost a year of work. Thank you very much Artmile Japan.
